

**Interdisciplinary Lecture Series – Fall 2017**

**05.10.2017 | Elena Conti | MPI of Biochemistry**  
Molecular Mechanisms of Eukaryotic RNA Degradation

**12.10.2017 | Christoph Turck | MPI of Psychiatry**  
Biosignature Discovery - from Omics to Molecular Pathways

**19.10.2017 | Peter Becker | LMU**  
Studying Chromosome Structure and Function Through  
*in vitro* Reconstitution

**26.10.2017 | Heinrich Leonhardt | LMU**  
Role and Regulation of DNA Modifications in  
Development and Disease

**09.11.2017 | Brenda Schulman | MPI of Biochemistry**  
Twists and Turns in Ubiquitin Conjugation Cascades

**16.11.2017 | Stefan Lichtenthaler | TUM**  
Proteolysis in Health and Disease

**23.11.2017 | Ralph Böttcher | MPI of Biochemistry**  
Genetic Analysis of Integrin Signaling in Mice

**30.11.2017\* | Franz Herzog | LMU**  
Insights into the Kinetochore Architecture and its Role in  
Cell Cycle Regulation

**07.12.2017 | Matthias Mann | MPI of Biochemistry**  
Proteomics Applied to Cell Signaling and Translational Research

**14.12.2017 | Sigurd Braun | LMU**  
Heterochromatin — How to Keep it Silent

**Thursdays 17:00**

Main Lecture Hall, T-building, MPI of Biochemistry

\* Small Lecture Hall. 1<sup>st</sup> floor T-building, MPI of Biochemistry
